ALL WATERCHASE HOMEOWNERS HOTWIRE

There are still some homes where HOTWIRE has not been able to gain access to install the splicing boxes. HOTWIRE has also left door-tags on some of these homes. If you have not responded, please do so. For those who have responded, *thank you!*

A letter was sent out to everyone with a QR Code for you to scan and submit your information (name, phone number, address and email address) to Hotwire. A copy of the letter is on the bulletin board outside of the clubhouse. If you have not done so, please scan the QR Code and complete your information so that we can continue to move forward with this project.

There are several phases to this project and it's somewhat difficult to move on to the next phase if one phase has not been entirely completed.

Thank you in advance for your cooperation!
